Nauka **porozumiewania się** otwiera dzieciom
i dorosłym realację z innymi.

Nauka i możliwość **czytania**
pozwalają na odkrywanie świata.

Makaton to najbardziej **logiczny system** (zasady tworzenia nowych znaków i łączenia ich w zdania) **komunikacji AAC**.

Makaton poprzez swoje znaki umożliwia nie tylko **porozumiewanie się**, ale także **rozwój języka** poprzez naukę tworzenia zdań, budowania wypowiedzi i **czytania**.

Makaton to jedyny system AAC stosujący **dwa rodzaje znaków** (do wyboru): **gesty i symbole graficzne**.
